ISBN: 9780593336847
Format: Paperback

BOOK RESUME: LOVE ON THE BRAIN

BOOK SYNOPSIS

Like an avenging, purple-haired Jedi bringing balance to the mansplained universe, Bee Königswasser lives by a simple code: What would Marie Curie do? If NASA offered her the lead on a neuroengineering project—a literal dream come true after years scraping by on the crumbs of academia—Marie would accept without hesitation. Duh. But the mother of modern physics never had to co-lead with Levi Ward.

Sure, Levi is attractive in a tall, dark, and piercing-eyes kind of way. And sure, he caught her in his powerfully corded arms like a romance novel hero when she accidentally damseled in distress on her first day in the lab. But Levi made his feelings toward Bee very clear in grad school—archenemies work best employed in their own galaxies far, far away.

Now, her equipment is missing, the staff is ignoring her, and Bee finds her floundering career in somewhat of a pickle. Perhaps it's her occipital cortex playing tricks on her, but Bee could swear she can see Levi softening into an ally, backing her plays, seconding her ideas . . . devouring her with those eyes. And the possibilities have all her neurons firing. But when it comes time to actually make a move and put her heart on the line, there's only one question that matters: What will Bee Königswasser do?

REVIEWS AND PRAISE

"With her sophomore novel, Ali Hazelwood proves that she is the perfect writer to show that science is sexy as hell, and that love can 'STEM' from the most unlikely places. She's my newest must-buy author."—Jodi Picoult, #1 *New York Times* bestselling author of *Wish You Were Here*

"I cannot get enough of her brand of brainy romance! . . . Writing with an emotionally brilliant and witty pen, Hazelwood is an absolute romance powerhouse." —Christina Lauren, *New York Times* bestselling authors of *The Unhoneymooners*

"Gloriously nerdy and sexy, with on-point commentary about women in STEM." —Helen Hoang, *New York Times* bestselling author of *The Heart Principle*

"STEMinists, assemble. Your world is about to be rocked." —Elena Armas, international bestselling author of *The Spanish Love Deception*

"Snappy dialogue with witty zingers make this tender enemies-to-lovers story, set at NASA in Houston, an unforgettable follow-up to neuroscientist Hazelwood's popular *The Love Hypothesis*. . . Light espionage, some derring-do, and an unexpected villain are just some of the delights in Hazelwood's smart, unusual,
